about

DOWNLITE

Founded in 1983 as an offshoot of a 100-year-old European bedding firm, DOWNLITE is the largest and fastest growing major U.S. luxury down-filled bedding manufacturer. We make bedding products for fine hotels around the world and for most major U.S. bedding retailers. These products include natural and synthetic-filled comforters, blankets, pillows, feather beds, mattress toppers, decorative pillow inserts, and bedding accessories.

The vast majority of our products are manufactured at either our Mason, Ohio headquarters, or our plant in Middletown, Indiana. Others are produced at joint venture facilities in Europe and Asia.

We are the largest U.S. down and feather processor. Our RestAssured™ system cleans down at twice the U.S. government-required standard, making it not just

hypoallergenic, but sterile. Beyond using our down and feathers in bedding, our natural fills are used in furniture, sleeping bags and in branded outerwear.

Hospitality is DOWNLITE's fastest growing market. We are a custom manufacturer, tailoring products and services to each hotelier's needs. Equally important - in a world where what you order is not necessarily what you get - our integrity and customer-centric culture means that products are delivered on time, as ordered. Our quality control processes meet or exceed the standards of the world's most demanding properties.

Why Choose DOWNLITE

We are a U.S. based family owned business that has built our long-standing reputation on quality craftsmanship & materials, integrity, customer partnerships, product innovation, on-time shipping and sharp pricing.

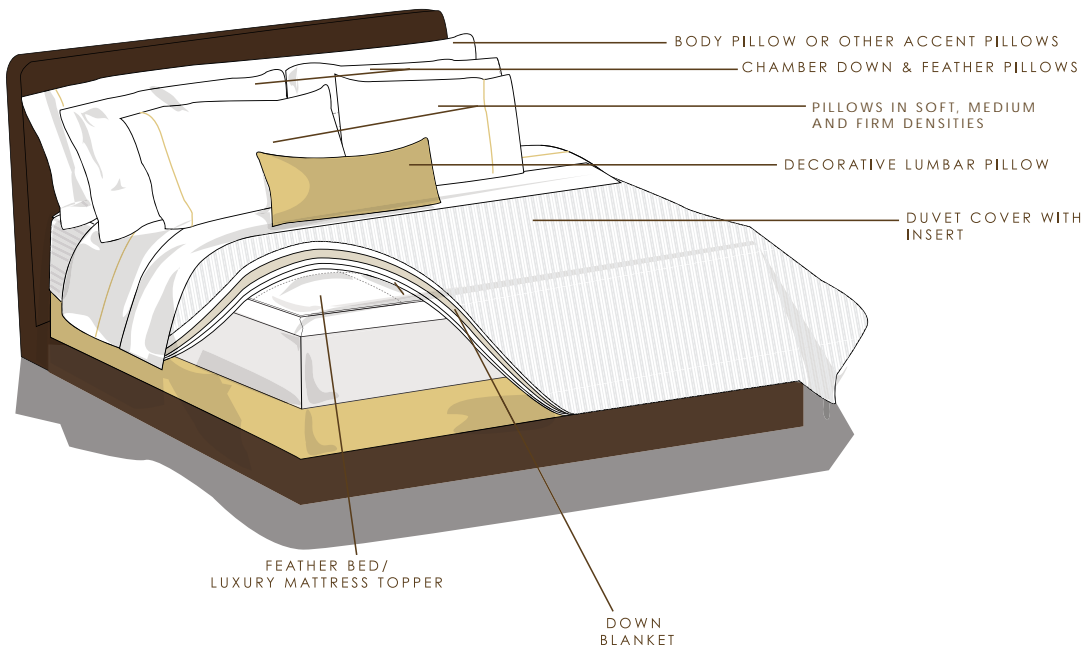

our customers

DOWNLITE serves all types of hospitality customers: large chains, mid-scale hotels, spas and resorts, ultra luxury properties, bed & breakfasts, cruise lines, time-shares, fractional ownership vacation clubs, airlines, corporate housing firms, and their distributors. A representational list of these customers can be provided, at your request.

You will also find DOWNLITE products under private label in most major department stores, specialty stores and catalogs. Our retail customers include: Amazon.com, Bed Bath & Beyond, Belk, Bloomingdale's, Cuddledown, Costco, Dillard's, Eddie Bauer, Fred Meyer, Garnet Hill, Hammacher Schlemmer, HomeGoods, HSN, Land's End, L.L.Bean, Macy's, Nordstrom, Sam's Club, ShopNBC, Williams-Sonoma Home, as well as boutique linen and bedding stores across the country.

Creating the PERFECT BED

*Begin creating the experience by adding one of our luxurious **feather beds** to the mattress. Next, lay a fitted sheet over the **feather bed** and tuck around the mattress. Enhance the sleep experience with triple sheeting by encasing a **down blanket** between a middle sheet and decorative top sheet. Add a touch of warmth and a cloud of comfort with a **down comforter**. The finishing touch is a layered **pillow presentation** with alternating levels of softness and firmness to drift into sweet dreams.*

DOWNLITE's Luxury Bedding to Enhance the Sleep Experience.

Comforters/Duvet Inserts

Duvet Covers

Pillows In Soft, Medium And Firm Densities

Body & Decorative Accent Pillows

Feather and Fiber Beds

Mattress Toppers

RestAssured™ hypoallergenic natural fill

All down and feathers used by DOWNLITE are processed at double the USDA requirements, leaving them hypoallergenic and sterile. Through the industry's most rigid sanitizing methods, dust, dirt, oil and dander that trigger allergies are removed. With state-of-the-art washing lines, fresh water, European soap, specialized deodorizer and extra washing cycles, you can be **RestAssured™** about the quality and cleanliness of the feathers and down in our products.

product features

NO SHIFT CONSTRUCTION

All of our duvet inserts, filled blankets, feather beds and mattress toppers are made with a fixed construction. With either a quilted (sewn-through-box) or our patented PermaBaffle® baffle-box construction, these items will have evenly distributed fill even after laundering.

MACHINE WASHABLE

Most of our products are designed to be machine washable. Of course, spot cleaning should always be your first line of defense... but if needed, you can throw most of our pillows, duvet inserts, and blankets in the washer. When drying, we recommend not exceeding 120 degrees and drying thoroughly. Detailed care instructions are sewn into each of our products.

LEAK-PROOF CONSTRUCTION

All of our quality bedding products are guaranteed to be leak-proof. We only use fabrics that are woven and finished down-proof and have a minimum thread count (TC) of 230. We double-needle stitch the edges on all of our filled bedding items in order to secure the filling.
